

...conduct the pulse

Asymmetric recycler!!!

The new weekly time switch SC 28.X2 pro provides more than expected. With comprehensive functionality, e.g. pulse function, data-key function, backlight, hour and pulse meter... the SC 28.X2 pro pro inspires.

A special highlight is the new cycle function. It allows you to program periodic pulse and pause depending on the time of day. The clock works thereby as an asymmetric flasher.

switching controlling counting

A variety of possibilities... ... the new 172 4X2 pro provides more than expected

SC 28.X2 pro

-  **pulse** Pulse function
-  **cycle** Cycle function / Recycler function
-  **Extern** External input
-  **front** Front-key function / Channel-key function
-  **Warning** Advance warning function
-  **timer** Timer-function
-  **data** Data-key

SC 28.X2 pro

-  **menu** text
-  **lcd**
-  **kanal** 1 to 2 channel
-  **24h** prog
-  **week** prog
-  **Internal** Intern 100
-  **pin**
-  **data**
-  **pulse**
-  **NEW FUNCTION: cycle**
-  **Extern**
-  **front**
-  **Warning**
-  **timer**

More than expected...

- External input (1 channel-version)
- Front key function
- Advance warning function
- Timer function (up to 9:59:59 h:mm:ss)
- Cycle function (pulse / no-pulse period)
Cycle = 1 s up to 9:59:59 h:mm:ss

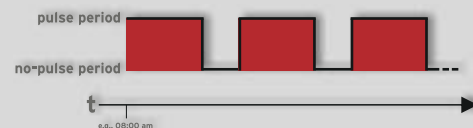

In combination these features work e.g. as staircase lighting timer or manual count down timer.

Cycle function as highlight...

A highlight is the cycle function or asymmetric flasher function. Compared to the standard weekly time switch this feature extend the range of applications.

Applications of the cycle function...

- Lighting control (e.g. illuminated advertising)
- Automated defrosting
- Cyclical ventilation
- And many more

Cycle function
Cycle = 1 s up to
9:59:59 h:mm:ss
